

MedicalService-Group - Home

The MedicalService-Group is a company with its registered seat in Germany, which specialized in services in the medical sector. The particularity of our corporation is that we are active and offer our invisibles in all domains which are tangent to medicine. Our aim is to supply any need in the different areas of medicine. Our expertise is not only the procurement of material requirements but also the organization, execution and handling of medical services. We made the wholistic care and support of our clients our business and are at our customers disposal as exclusive and constant contact. Also at voluminous and extensive requests we have the ability to offer fulfilment so that our clients have always one contact, independent from how complex the request is. This is possible for us because we cooperate with many trade names and institutions. Our business activities covers all domains of medicine, such as project planning and instrumentation of hospitals

procurement of any medical utensils, units, equipment and hospital requirement
scheduling and handling of medical attendance of foreign patients in German hospitals
organisation of traineeships for medical students from abroad
arrangement of advanced training courses in Germany for medical doctors from abroad
studentservice
